

## INDUSTRIAL MOTORISED SIRENS LONG RANGE SIREN 8D

### OVERVIEW

All weather enclosed motor is ideally suited for outdoor use.

This siren would be used for audible warnings in refineries, oil rigs, in the event of fires and open-cast mining operations.

This precision manufactured unit produces a powerful low frequency sound that is ideal for long distance signalling.

### SPECIFICATIONS

- Sound output 135dB(A) 1m
- Sound frequency – 450/560Hz
- \*Range: Approx. 8000m in still air
- Precision CNC machined.
- Aluminium fabrication
- Robust metal base
- Double Impellers
- Low penetrating tones
- Dimensions: 410 x 520 x 460mm
- Weight: 42kg
- Packaging size: 50 x 60 x 55cm
- Shipping weight: 50kg
- Duty Cycle: Continuous
- Horizontal and level operation
- Mounting base centres: 150 x 180mm

**\*Range:** Based on siren mounted horizontally in an elevated position in still air.

**Notes:** In dusty and harsh environments, a protective shield over the siren is recommended.

### MODEL DETAILS

Part Number	Voltage Hz	Running Current	Starting Current
S8D415	380/415v 50Hz 3Φ	7A	61A
S8D480	460/480v 60Hz 3Φ	6A	72A

Other models, voltages available on request
